THE ALFOND INN & HAMILTON'S KITCHEN

Named in honor of Hamilton Holt, president of Rollins College from 1925 to 1949, Hamilton's Kitchen embodies one man's pursuit of innovation, quality design and philanthropy. The iconic president was known for inviting too many people over for dinner gatherings, saying "If you can find a chair, you're welcome in my kitchen." Different styles of chairs pop up as homage to Holt throughout the restaurant, where Southern fare is served with a modern twist, where locally sourced ingredients fuse with the rustic, open-table charm of a bygone era. Located in The Alford Inn, Hamilton's serves breakfast, lunch and dinner seven days a week.

CORNELL FINE ARTS MUSEUM

This spring, immerse yourself in the beauty of 19th-century French plein-air painting and rediscover how the revolution we call Impressionism came about. The Cornell Fine Arts Museum is one of only two U.S. museums to host *Towards Impressionism: Landscape Painting from Corot to Monet*, curated and managed by Art Centre Basel in collaboration with the Musée des Beaux-Arts de Reims and the city of Reims, France. Multilayered themes of religion and war are explored in *Ria Brodell: Devotion* (the artist's first solo museum show) and *Picturing War*, and selections from the permanent collection are on view both at the museum and The Alford Inn at Rollins. Admission is always free (this year, courtesy of PNC Financial Services Group), and we are now open until 7 p.m. on Tuesdays.

WELCOME TO VOL.10 OF PASSPORT WINTER PARK

PASSPORT WINTER PARK will be celebrating five years in September and has quickly become the quintessential guide to Winter Park and beyond! While the time has flown by, the evolution of our brand continues to raise the bar from our “Portrait Series” photography, quarterly relevant themes and unique storytelling design.

In this issue we bring you “The Art of Beauty” from head to toe in addition to “The Art of Weddings,” a preview of some of the best in the business. Fashion meets technology on our cover with *Possible Tomorrows* by Ying Gao, part of a groundbreaking exhibition called *Coded_Couture* that was recently held at the Pratt Manhattan Gallery showcasing a range of futuristic concepts. A part of this exhibition is now here in Florida at the Ruth Funk Center for Textile Arts at the Florida Institute of Technology in Melbourne. A huge thanks to Ginger Gregg Duggan who introduced the exhibition to me.

As you turn the pages and discover something new, be sure to tell them you saw it in PASSPORT first and follow us on Instagram and Facebook.

THE GLASS KNIFE

The Glass Knife is Winter Park's go-to destination for decadent cakes, elegant desserts and specialty sweet treats. Come sit a spell. Any time of day, from kick-start to nightcap. Stop by for the perfect morning coffee or artisanal doughnut. Brunch till your heart's content. Enjoy your lunch break. Toast over dessert and champagne. Take home a cake for that special occasion. Something delicious awaits ... and we're here to share.

COVER ARTIST YING GAO

Avant-garde artist Ying Gao — whose interactive collection *Possible Tomorrows* has been designed with fingerprint-recognition technology — is the genius behind our cover art. Through bypassing the notion of security, her robotic garments only become animated in the presence of strangers whose fingerprints aren't recognized by the scanner. Gao has achieved personal distinction through her numerous creative projects: six solo exhibitions in France, Switzerland and Canada, and participation in 70 group exhibitions around the world. Her varied creative work has enjoyed international media coverage in *Time*, *Vogue*, *The New York Times*, ARTE and more. Gao questions our assumptions about clothing by combining urban design, architecture and media design. Her work testifies to the profound mutation of the world in which we live and carries with it a radical critical dimension that transcends technological experimentation.

WOMEN IN ART GINGER GREGG DUGGAN

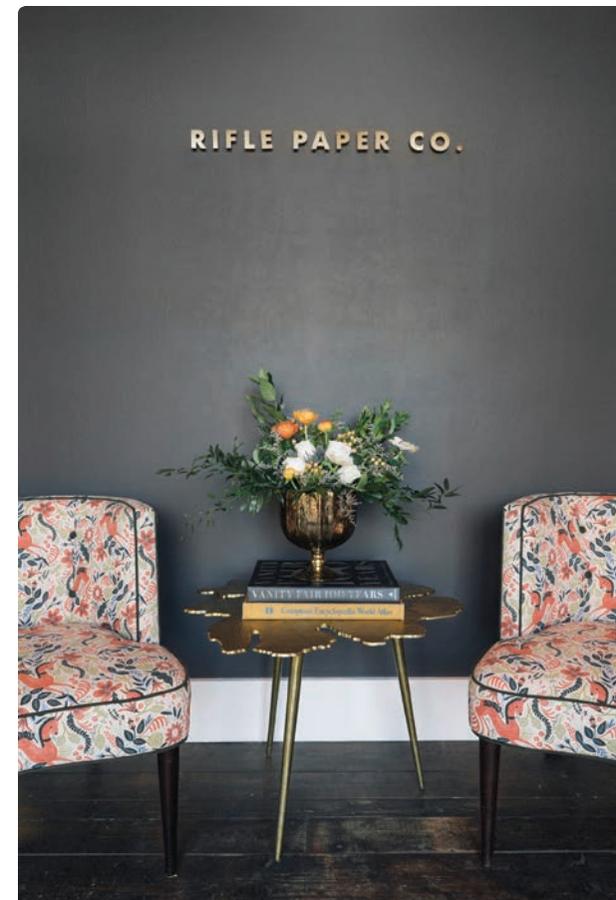

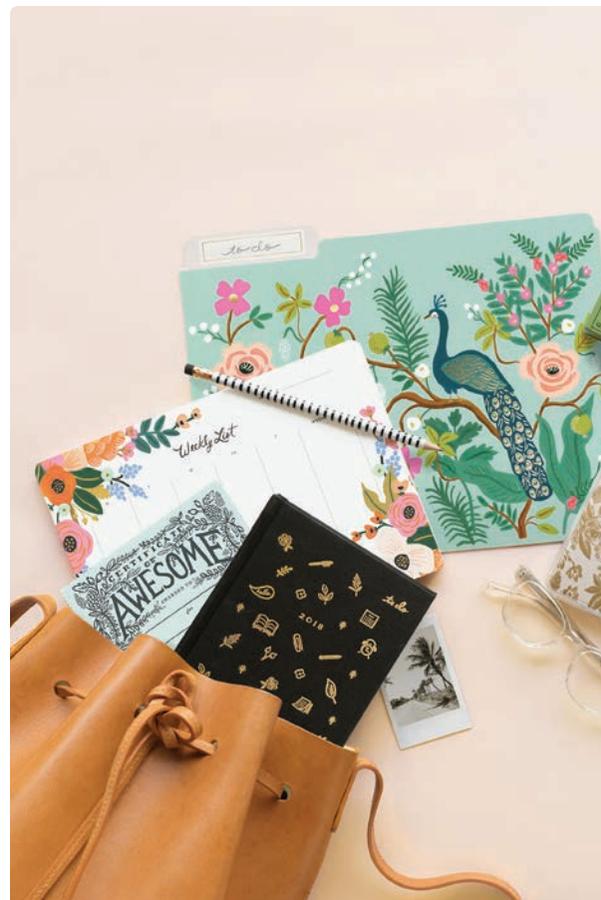

Duggan first became interested in a curatorial career while studying abroad in Italy. “I recall being amazed by an exhibition at the Peggy Guggenheim Museum in Venice and knew that being a curator had great impact on the visitors’ experience,” says Duggan. She is drawn to art that makes her think and to artists who use humor to pull you in. For *Coded_Couture*, the third major fashion exhibition she’s done with her agency, curatorsquared, she loved finding fresh ways to display the work. “Simply placing garments on mannequins felt too traditional and linked to the figure,” she says. Always traveling, always looking for the next big innovator, Duggan and her partner, Judy Fox, show no signs of slowing down. curatorsquared.com

THE ART OF BEAUTY

In the next 18 pages, we introduce you to the area's top beauty experts. Whether it's time for an eyelift, a new spa treatment or an updated hair style, these world-class professionals are ready to deliver.

PASSPORT WINTER PARK

RUTH HILL YEILDING, M.D.

What is your most commonly performed surgery? Upper and lower eyelid lift surgeries are the most common in our practice. Patients gain their confidence back because they no longer appear tired.

Who are your happiest patients? Facelift patients who also have eyelid lifts and facial laser resurfacing are our happiest patients by far.

Why do you administer injectables yourself? To stay connected with patients over time. Patients also like my knowledge of facial anatomy and treatments that come with being a double board-certified facial plastic surgeon.

DR. ANDREW J. HULL

What do you recommend for someone with back pain? Don't freak out ... about what the internet says! Find a chiropractic physician who can assess the severity of the symptoms with a proper orthopedic and neurological exam.

Why is chiropractic care so important for people?

Chiropractic care is a medically proven, safe, effective treatment with no negative side effects. It has zero interaction with medication you may already be taking.

What do you enjoy most about your job? My patients! They make every day fun and exciting.

What makes your practice stand out? My mission is important: to understand each unique case and tailor a treatment program to fit the patient's needs.

CATHERINE IMBESI

SALON CISÉAUX

How do you pick a hair stylist?

An amazing haircut is the foundation of all great hair. It's important to go to a stylist who can determine the best style for your face structure, hair density, and hair texture.

What should everyone know about hair color?

Color has the ability to make you look much younger! Make sure you are getting color that is trendy and stylish, but also works in your favor.

How can I keep my hair looking good at home?

The most important way to

duplicate a look is with the proper tools. Make sure to have the same products and styling tools at home that were used at the salon.

What's the key to hair consistency?

Always make your next appointment before leaving the salon! It's important to secure a stylist who understands your hair and your needs. Repeated experience with a client's hair is the best way for a stylist to give you great-looking results. Find a stylist who gets you and your hair and stick with them!

DR. SCOTT ROTATORI, M.D.

What made you choose plastic surgery? I love science, so medicine was a natural progression, and plastic surgery seemed to be the most creative and interesting path.

Tell us about your practice. I have been in practice in Winter Park since 1993. I really enjoy helping people improve their self-confidence.

Why is it important to be board-certified? It's an important step in the accreditation process that weeds out less qualified practitioners.

Do your artistic abilities contribute to your career? My mother is an artist and encouraged me to draw and paint. I've always enjoyed viewing art and drawing, particularly the human body.
