BLUEVAULT

The hub for alternative investments

RESEARCH | EDUCATION | INSIGHTS | INDUSTRY CONNECTIONS

Blue Vault is the hub for wealth advisors to access research, performance data, educational insights and industry connections — and a place for alternative investment asset managers and service providers to connect with wealth advisors.

Founded in 2009, Blue Vault was built on the belief that transparency, education and access are the essential ingredients for wealth advisors to bring alts to the forefront of their practices and select the offerings best suited for their clients.

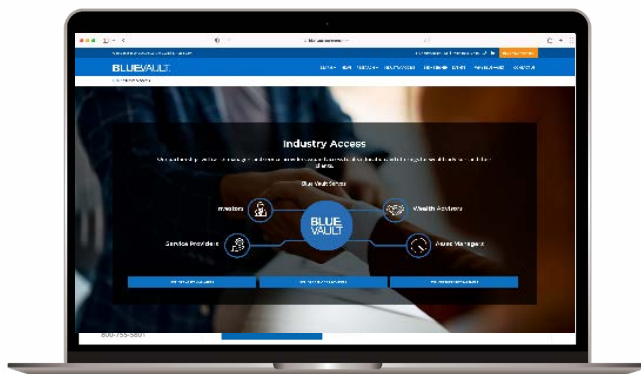

We are committed to providing access to valuable performance information that was once stored only deep inside financial statements and filings, and often difficult to access.

Through Blue Vault, wealth advisors gain access to in-depth research on nontraded REITs, nontraded BDCs, interval funds, tender offer funds, preferred shares and a growing number of private securities offerings by means of reports and a searchable alts offerings database.

We're dedicated to providing news, insights and ongoing learning opportunities to help wealth advisors keep their alts knowledge fresh, stay on top of trends, and to connect wealth advisors with asset managers and service providers.

The Blue Vault Website

A new Blue Vault website launched in the fall of 2023. Our website is a cohesive hub primed for educating Wealth Advisors on alts offerings, promoting Asset Managers and Service Providers, and being the one-stop-shop for all things alternative investments. Everyone who visits our site can view Live Webinars, read current industry news, visit Asset Manager and Service Provider profile pages, and view our calendar of Blue Vault events.

Blue Vault's website also offers Paid Memberships for Wealth Advisors, allowing them to unlock all that the Blue Vault website has to offer.

Members can expect a streamlined, but comprehensive user experience that allows access to in-depth fund performance reports and our interactive research database, current industry news, live *and recorded* webinars and member-exclusive articles.

Events

The Alts Summit

Our signature Alts Summit is held each spring to bring wealth advisors and broker dealers who are using or have expressed interest in alternative investments together with asset managers and service providers. Build brand recognition as a sponsor, exhibitor and speaker, and engage with wealth advisors and broker dealers throughout the conference in sessions, and at meals and networking events.

AltsDay

We also hold a virtual AltsDay each fall to provide wealth advisors and broker dealers with an easy way to get updates on the industry, current offerings and asset managers and service providers. AltsDay is restricted to wealth advisors, broker dealers, and Blue Vault's Ambassador partners

Education

Whether wealth advisors are new to, or well-versed in, alternative investments, we provide a wide range of learning opportunities, including Alts 101 content, webinars, podcasts, videos and the Blue Vault Minute, a short-form discussion by wealth advisors for wealth advisors on a range of alts topics.

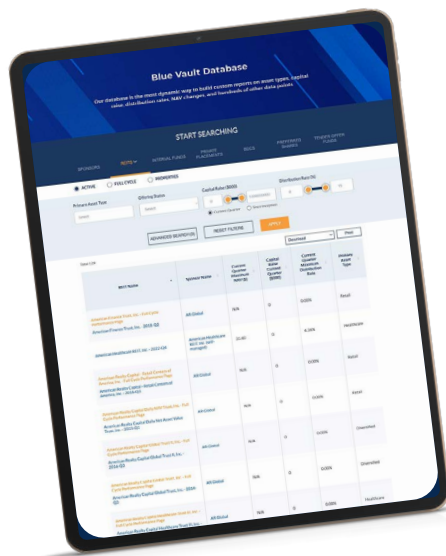

WHAT WE DO

We're dedicated to providing news, insights and ongoing learning opportunities to help wealth advisors keep their alts knowledge fresh, stay on top of trends, and make connections with asset managers and service providers.

Research

Get access to in-depth research on nontraded REITs, nontraded BDCs, interval funds and tender offer funds as well as preferred share offerings. See how your competitors are actually performing with the performance metrics in our alts reports, database and data files. Metrics include capital raise, NAV changes, distribution rates, redemptions, coverage ratios, operating performance and financial outlook. Track individual share classes or the overall performance of the fund.
