NOTES: The Distribution Coverage Ratio is listed as "Not Meaningful" when Funds from Operations (FFO) or Modified Funds from Operations (MFFO) during that period are negative. A negative FFO or MFFO indicates a loss – no accounting earnings to cover the distribution. Keep in mind, however that FFO or MFFO does not indicate when cash actually changed hands. FFO or MFFO is an accrual or accounting measure of profitability that records revenues and expenses when they are incurred – regardless of when cash is exchanged. On July 7, 2010, the Company filed a registration statement on Form S-11 with the SEC to register a follow-on public offering which is expected to commence the first quarter of 2011. The Company intends to cease offering shares of common stock in the current offering upon the earlier February 6, 2011 or the date the registration statement relating to the proposed follow-on offering, is declared effective by the Securities and Exchange Commission.
