NOTES: As of December 31, 2007, yields are based on a \$9.92 per share investment value after adjusting for the \$.08 per share special distribution paid on January 16, 2008. Variable rate debt at September 30, 2010 included (i) \$184.5 million that has been effectively converted to fixed rates through interest rate swap derivative instruments, and (ii) \$110.7 million in nonrecourse mortgage loan obligations that bore interest at fixed rates but that convert to variable rates during their term. In June 2009, the board of directors approved the suspension of the redemption plan, effective for all redemption requests received subsequent to September 1, 2009, subject to limited exceptions in cases of death or qualifying disability. During the first quarter of 2010, the board of directors re-evaluated the status of the redemption plan and determined to keep the suspension in place. The suspension will remain in effect until the board of directors, in its discretion, determines to reinstate the redemption plan. The MFFO figures reported above are the same as the AFFO, or Adjusted Funds From Operations, reported by the Company.
