 Rate: 1.2 - 6.4%
 Term: 0 - 5+ yrs

Interest Coverage Ratio

Interest Coverage Ratio:2.5

Lease Expiration*

*Data as of 12/31/09.

NOTES: Yields are based on \$10 per share. The variable rate debt above includes approximately \$206 million of variable rate debt that was effectively swapped to a fixed rate. The Distribution Coverage Ratio is listed as "Not Meaningful" when Funds from Operations (FFO) or Modified Funds from Operations (MFFO) during that period are negative. A negative FFO or MFFO does not indicate when cash actually changed hands. FFO or MFFO is an accrual or accounting measure of profitability that records revenues and expenses when they are incurred – regardless of when cash is exchanged. Based on the Company's 2010 budgeted expenditures, and except with respect to redemptions sought upon a stockholder's death, "qualifying disability" and "determination of incompetence", the Company does not currently expect to have funds available for redemption for the share redemption program in 2010. The board of directors will revisit its determination if circumstances change during the year.
